

Camp Rocky is a week-long residential camp for youth ages 14-19 who enjoy the outdoors and are interested in natural resources. The Professional staff helps participants learn about the environment through hands-on experiences. The students work in teams, making new friends from across Colorado. Each year, students choose a resource field for their area of study. Other activities include volleyball, hiking, campfire, group challenges, talent show and a dance.

www.coloradoacd.org/camprocky

Download all forms and send application and forms to: CACD, PO Box 1175, Lamar, CO 81052

Send CACD the \$100.00 deposit or full \$350.00 to reserve a spot.

Return all forms and balance to the above address by 6/15/19.

56th Year Award Winning One Week Camp

Fish & Wildlife Management: This team may track a radio collared animal, go electro-fishing, learn how wildlife adapt to their surroundings and complete a habitat enhancement project.

Rangeland Management: This group learns about the “fitness” of the rangeland and the forage it provides.

Soil & Water Conservation: Students learn about the primary components of the watershed. Study river system and learn about different types of soil

Forest Management: Learn about the different forest types, health of forests and how insects, diseases and fire affect trees.

Second half of the Week.

Students will develop and present their group natural resource action plans. They will use their group plan to complete a management project on the property with the guidance of their professional leaders.
